Using Your Computer

The First Step to Digital Literacy!

Using Your Computer is a series of short videos to help your students develop basic digital literacy.

- Introduces basic digital literacy, including computer, mouse, and keyboard actions
- Familiarizes students with BurlingtonEnglish features and functionality
- Suits all students, including those with limited to no digital literacy skills
- Accommodates learners with limited English proficiency, using easy-to-follow, visual demonstrations
- **Flexible!** Allows for self-directed learning or teacher-led instruction
By following short animated videos, students will learn how to use a computer quickly and effectively, including how to maneuver the mouse and use the keyboard. Using Your Computer will familiarize students with the features and functionality of the BurlingtonEnglish program, and help them develop basic digital literacy skills.
